

[READ MORE ON OUR WEBSITE](#)

Dear Susan,

We enjoyed watching the capstone presentations of our Stanford Anesthesia Summer Institute students today. It was a joy to watch < insert student's first name > absorb all of the knowledge we shared over the past two weeks about compassionate careers in science, technology and medicine and develop teamwork and leadership skills. We introduced our students to ePatients so they could learn their health care journeys and interact with them, understanding the importance of the [Everyone Included](#) principles. It truly was inspiring to watch the students grow as empathetic individuals.

Thank you for supporting < insert student's first name > throughout this program. It would not have been possible without you.

Lastly, for those who joined today's talk by Stanford School of Medicine Associate Dean of Admission Dr. Iris Gibbs, shown above, we hope it was insightful. We wish you and < insert student's first name > the best as < insert student's first name > embarks on a lifetime of learning and growth.

As always, if you have any questions, feel free to let us know at [summermed@stanford.edu](mailto:summermed@stanford.edu).

Sincerely,

Bassam Kadry, MD  
Associate Director, Leadership

Larry Chu, MD  
Executive Director

Amy Price, DPhil (Oxon)  
Associate Director
